INDEX TO VOLUME XV

The asterisk * preceding the page number indicates an original article in this Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in this Journal. Subject entries are made of all articles. Author entries are made for original articles and Society Transactions.

ADAMS, Raymond D., introductory remarks,* 24, D208, D209, D210, D212, D215, D218, D220, D224, D227, D228, D413
, see Fisher, C. Miller, *243
, see Porter, Huntington, *61
, see Waksman, Byron H., *293
Allergic encephalomyelitis, a study of abnormal blood brain permeability in experimental, *196
Altman, Ronald, see Loewnfeld, Irene E., *181
American association of neuropathologists, annual meeting, Chicago, Ill., T208
Antopol, William, see Wolf, Abner, *384

BAILEY, Orville, T., D216
Balthasar, Karl G., the histology of aimed hypothermal brain injuries in cats, T211
Barlow, Charles F., a study of abnormal blood brain permeability in experimental allergic encephalomyelitis, *196
Baxter, Donald, see Foley, Joseph M., T219, D220
Beckett, D220
Bilateral symmetrical degeneration of the thalamus, a clinicopathological study, T208
Blackwood, H., D231
Blood brain permeability in experimental allergic encephalomyelitis, a study of abnormal, *196
supply of the primate striopallidum, *377
Book reviews, 117, 237, 494
Borison, H. L., T. D. Harris, and A. M. Schmidt, central emetic action of pilocarpine in the cat, *485
Brain and liver, in hepatic encephalopathy, the copper content of, *61
, dysgenetic gliosis of the, *471
, malformation of the adult, *432
mapping, radioactive tracer exchange in functional, *103
Browder, Jefferson, see Kaplan, Harry A., *65
Brownson, Robert H., perineuronal satellite cells in the motor cortex of aging brains, *190

CAMMERMEYER, Jan, changes in volume of cat spinal cord induced by formalin fixatives, T212, D213, D216, D220, D224
, neuropathological changes in hereditary neuropathies: manifestation of the syndrome heredopathia atactica polyneuritiformis in the presence of interstitial hypertrophic polyneuropathy, *340
Cat brains, variations of Horsley-Clarke coordinates in, *181
Central emetic action of pilocarpine in the cat, *485
nervous system, comparative histologic and electron microscope investigations, of the, *12
Cerebral infarction produced by venous distention, *146
Changes in volume of cat spinal cord induced by formalin fixatives, T212
Chason, J. L., subependymal mixed gliomas, *461
Clinico-pathologic report of Alzheimer's disease, T233
Comparative histologic and electron microscope investigations of the central nervous system, *12
study of experimental allergic neuritis in the rabbit, guinea pig, and mouse, *293
Cook, Albert W., see Odessky, Louis, T223, T225
Copper content of brain and liver in hepatic encephalopathy, *61
Correlated changes in the inferior olive and the pons following experimentally produced injuries to the cerebellum in chick embryos, T209
Cortex, motor, of aging brains, perineuronal satellite cells, in, *190
Courville, Cyril B., multinucleation of cortical nerve cells at margin of malignant glioma, its possible significance with respect to the neoplastic development of ganglioglomas, *369, D217, D235
Cowen, David, see Wolf, Abner, *384

DENNY BROWN, D., S. Horenstein, and H. C. H. Fang, cerebral infarction produced by venous distention, *146
Differential diagnosis and end results, spinal ganglioneuroma, *85

Diffuse gliomatosis of the brain in von Recklinghausen's disease, a study with silver carbonate, †218
Diphtheritic polyneuritis—a pathological study, *243
Distention, venous, cerebral infarction produced by, *146
Dmochowski, L., see Roizin, L., *12
Dunsmore, R. H., see Scoville, W. B., *85
Dysgenetic gliosis of the brain, a case of macrogyria, *471

EAYRS, J. T., the effect of vitamin A on the development of hypothyroid rats, *93
Effect of vitamin A on the development of hypothyroid rats, *93
Electroencephalography in subdural hematoma: a consideration of its pathophysiology, *65
Electron microscope and comparative histologic investigations of the central nervous system, *12
Encephalomyelitis, allergic, a study of abnormal blood-brain permeability in experimental, *196
Encephalopathy, the copper content of brain and liver in hepatic, *61
Ependymal anlage, evaluation of gliomas derived from the, *33
Evaluation of gliomas derived from the ependymal anlage, *33

FANG, H. C. H., see Denny-Brown, D., *146
Ferraro, Armando, editorial—neuropathology in the forthcoming international congress of neurological sciences, *1
Feigin, Irwin, xanthomatosis of the nervous system, *400
Foley, Joseph M., and Donald Baxter, observations on the morphology of the cells of the locus coeruleus and substantia nigra in infants, †219, †396
Fisher, C. Miller, and Raymond D. Adams, diphtheritic polyneuritis, a pathological study, *243

GANGLIA, reduction of neotetrazolium in satellite cells of the cerebrospinal and sympathetic, *384
Gangliogliomas, multinucleation of cortical nerve cells at margin of malignant glioma, its possible significance with respect to the neoplastic development, *369
Ganglion cells, post mortem alterations in autonomic, *79
Ganglioneuroma, spinal, end results and differential diagnosis, *85
Glioma, multinucleation of cortical nerve cells at margin of malignant, *369
Gliomas, evaluation of, derived from the ependymal anlage, *33
, subependymal mixed, *461
Gliosis, dysgenetic, of the brain, *471
Greenfield, J. Godwin, historical landmarks in the pathology of involuntary movements, *5, †209, †220, †223, †231

HARKMARK, Wilhelm, correlated changes in the inferior olive and the pons following experimentally produced injuries to the cerebellum in chick embryos, †209, †210
Harris, T. D., see Borison, H. L., *185
Haymaker, Webb, see Janssen, Peter, *269, †209, †210, †213, †225, †230, †232, †234, †398
Hematoma, subdural, in electroencephalography, *65
Hemochromatotic pigmentation of the central nervous system, a clinical pathological report, †214
Histologic structure of the "inclusion bodies" of the neurons in Pick's disease, a study with silver carbonate, †226
Histology of aimed hypothermal brain injuries in cats, †211
Histopathological study of four cases of Sturge-Weber's disease, †227
Historical landmarks in the pathology of involuntary movements, *5
Horenstein, S., see Denny-Brown, D., *146
Horsley-Clarke coordinates in cat brains with description of a stereotaxic instrument especially useful in neuro-ophthalmologic work, variations of, *181
Huber, Warren, see Kaplan, Harry A., *65
Hypothyroid rats, the effect of vitamin A on the development of, *93

INCIDENCE, composition and pathological significance of intracerebral vascular deposits in the basal ganglia, *417
Infarction, cerebral, produced by venous distention, *146
Intracerebral vascular deposits in the basal ganglia, incidence, composition, and pathological significance of, *417
Involuntary movements, historical landmarks in the pathology of, *5
Irradiation, prenatal, albino rat resulting from, *432

JANSSEN, Peter, Ludo van Bogaert, and Webb Haymaker, pathology of the peripheral nervous system in African trypanosomiasis; a study of seven cases, *269
John, Erwin Roy, radioactive tracer exchange in functional brain mapping, *103
Jones, E., see Scharenberg, K., †218
Josephy, H., †231, †234

KAPLAN, Harry A., Warren Huber, and Jefferson Browder, electroencephalog

raphy in subdural hematoma: a consideration of its pathophysiology, *65
, [T]223
Kirschbaum, W. R., [T]227
Kramer, Willibald, dysgenetic gliosis of the brain, a case of macrogyria, *471
Kubik, Charles S., [T]222

LICHTENSTEIN, Ben W., [T]228, [T]231
, and Paul R. Rosenbluth, Schilder's disease with melanoderma, [T]229, [T]414
Liss, Henry A., see Mettler, Fred A., *377
Loewenfeld, Irene E., and Ronald Altman, variations of Horsley-Clarke coordinates in cat brains with description of a stereotaxic instrument especially useful in neuro-ophthalmologic work, *181
Luhan, Joseph A., [T]221, [T]231

MACROGYRIA, a case of dysgenetic gliosis of the brain, *471
Malformation of the adult brain (albino rat resulting from prenatal irradiation), *432
Manuelidis, Elias E., neuropathology of experimental west nile virus infection in monkeys, *448
McGrath, John J., see Riggs, Helena E., *432
Mettler, Fred A., Henry A. Liss, and George H. Stevens, blood supply of the primate striopallidum, *377
Mukai, Noritsugu, an evaluation of gliomas derived from the ependymal anlage, *33
Multinucleation of cortical nerve cells at margin of malignant glioma, its possible significance with respect to the neoplastic development of ganglioglomas, *369
Murray, M. R., see Peterson, E. R., *288
Myelomalacia caused by arteriosclerosis, [T]223

NEOTETRAZOLIUM, reduction of, in satellite cells of the cerebrospinal and sympathetic ganglia, *384
Nerve cells, cortical, at margin of malignant glioma, its possible significance with respect to the neoplastic development of ganglioglomas, multinucleation of, *369
Nervous system, peripheral, pathology of, in African trypanosomiasis, as study of seven cases, *269
, xanthomatosis of the, *400
Neumann, Meta A., hemochromatotic pigmentation of the central nervous system, a clinical pathological report, [T]214, [T]217
Neuritis, allergic, comparative study of, in rabbit, guinea pig, and mouse, *203
Neurological sciences, neuropathology in the forthcoming international congress on, *1
Neurons, regeneration and development of sensory, in vitro, *288
Neuropathies due to vitamin deficiency, *335
, hereditary, neuropathological changes in, manifestation of the syndrome heredopathia atactica polyneuritiformis in the presence of interstitial hypertrophic polyneuropathy, *340
Neuropathological changes in hereditary neuropathies: manifestation of the syndrome heredepathia atactica polyneuritiformis in the presence of interstitial hypertrophic polyneuropathy, *340
Neuropathology in the forthcoming international congress of neurological sciences, *1
of experimental west nile virus infection in monkeys, *448

OBSERVATIONS on the morphology of the cells of the locus coeruleus and substantia nigra in infants, [T]219
Odessky, Louis, and Albert W. Cook, myelomalacia caused by arteriosclerosis, [T]223, [T]225
Olive, inferior and pontine nuclei in kittens, transneuronal changes in the, *119

PALAY, [T]232
Pathology of the peripheral nervous system in African trypanosomiasis. A study of seven cases, *269
Pathophysiology, electroencephalography in subdural hematoma, a consideration of its, *65
Perineuronal satellite cells in the motor cortex of aging brains, *190
Peterson, E. R., and M. R. Murray, regeneration and development of sensory neurons in vitro, *288
Pilocarpine, central emetic action in the cat, of, *485
Polcyn, J. L., see Scoville, W. B., *85
Polyneuritis, diphtheritic, a pathological study, *243
Polyneuropathy, hypertrophic interstitial, manifestation of the syndrome heredopathia atactica polyneuritiformis in the presence of, *340
Pontine nuclei, transneuronal changes in the inferior olive in kittens and in, *119
Porter, Huntington, and Raymond D. Adams, the copper content of brain and liver in hepatic encephalopathy, *61
Post mortem alterations in autonomic ganglion cells, *79
Pribor, Hugo C., post mortem alterations in autonomic ganglion cells, *79

RADIOACTIVE tracer exchange in functional brain mapping, *103
Reduction of neotetrazolium in satellite cells of the cerebrospinal and sympathetic ganglia, *384
Regeneration and development of sensory neurons in vitro, *288

Richter, R. B., †210
Riggs, Helena E., John J. McGrath, and Henry P. Schwarz, Malformation of the adult brain (albino rat resulting from prenatal irradiation), *432
Roizin, L., and L. Dmochowski, comparative histologic and electron microscope investigations of the central nervous system, *12, †228, †233, †235
Rosenbluth, Paul R., see Lichtenstein, Ben W., †220

SATELLITE cells, perineuronal, in the motor cortex of aging brains, *190
Sayre, G. P., and R. G. Siekert, thrombosis of the basilar artery with infarction of the brain stem, †221, †223
Scharenberg, K., and E. Jones, diffuse gliomatosis of the brain in von Recklinghausen's disease, a study with silver carbonate, †218
, †208, †218, †219, †225, †226, †227, †233, †415
Schilder's disease with melanoderma, †229
Schmidt, A. M., see Borison, H. L., *485
Schulman, Sidney, bilateral degeneration of the thalamus, a clinicopathological study, †208, †209
Schwarz, Henry P., see Riggs, Helena E., *432
Scoville, W. B., J. L. Polcyn, and R. H. Dunsmore, spinal ganglioneuroma, end results and differential diagnosis, *85
Siekert, R. G., see Sayre, G. P., †221
Slager, Ursula T., and John Wagner, the incidence, composition, and pathological significance of intracerebral vascular deposits in the basal ganglia, *417
Spinal ganglioneuroma, end results and differential diagnosis, *85
Steegman, A. Theodore, †224
Stereotaxic instrument, especially useful in neuro-ophthalmologic work, description of, *181
Stevens, George H., see Mettler, Fred A., *377
Strauss, E. E., clinico-pathologic report of Alzheimer's disease, †233
Striopallidum, blood supply of the primate, *377
Study of abnormal blood-brain permeability in experimental allergic encephalomyelitis, *196
Subdural hematoma, electroencephalography in, *65
Subependymal mixed gliomas, *461

THROMBOSIS of the basilar artery with infarction of the brain stem, †221
Torvik, Ansgar, transneuronal changes in the inferior olive and pontine nuclei in kittens, *119
Transneuronal changes in the inferior olive and pontine nuclei in kittens, *119
Trypanosomiasis, African, pathology of the peripheral nervous system, in, *269

VAN BOGAERT, Ludo, see Janssen, Peter, *269
Variations of Horsley-Clarke coordinates in cat brains with description of a stereotaxic instrument especially useful in neuro-ophthalmologic work, *181
Venous distention, cerebral infarction produced by, *146
Virus infection, west nile, in monkeys, neuropathology of experimental, *148
Vitamin A, the effect of, on the development of hypothyroid rats, *93
deficiency, neuropathies due to, *335

WAGNER, John A., see Slager, Ursula T., *417
Waksman, Byron H., and Raymond D. Adams, a comparative study of experimental allergic neuritis in the rabbit, guinea pig, and mouse, *203
Weddell, Graham, †232
Weil, Arthur, †213
Wohlwill, Friederich J., and Paul I. Yakovlev, histopathological study of four cases of Sturge-Weber's disease, †227, †229
Wolf, Abner, David Cowen, and William Antopol, reduction of neotetrazolium in satellite cells of the cerebrospinal and sympathetic ganglia, *384

XANTHOMATOSIS of the nervous system, *400

YAKOVLEV, Paul I., see Wohlwill, Friedrich J., †227, †229

ZIMMERMAN, H. M., neuropathies due to vitamin deficiency, *335
